# Table des matières

<b>The model</b>	<b>2</b>
Lists . . . . .	2
<b>Methods</b>	<b>3</b>
<b>Tables</b>	<b>4</b>
<b>Figures</b>	<b>5</b>
<b>Code?</b>	<b>7</b>
<b>References</b>	<b>8</b>

# The model

This is a citation : Hampton et al. (2015) – we can also have citations in brackets (Hampton et al. 2015).

## Lists

1. one fish
2. two fish
3. red fish
4. blue fish

# Methods

There is an equation, which we can cite with 1.

$$J'(p) = \frac{1}{\log(S)} \times \left( - \sum p \log(p) \right) \quad (1)$$

# Tables

We can do tables :

Column 1	Column 2
c1	c2

# Figures

We can refer to figure 1.

FIG. 1 : This is the legend of the figure

# Code ?

Yes

```
for i in eachindex(x)
    x[i] = zero(eltype(x)) # Don't do that
end
```

# References
